### CAREFUL FITTING.

The frames of Eyeglasses and Spectacles require careful and skilled attention, just as much as the lenses themselves. Daily fitting glasses are not only uncomfortable to wear, but prevent the eyes from doing their work properly, and may in fact cause absolute injury. We are giving special attention to frame-fitting, and have been successful where others have failed.

No case is too difficult for us to deal with.

## Guns Were Not Recovered.

That is What Lord Roberts' Latest Despatch Indicates.

War Office Receives Official Story of Bushman's Kop—The Queen in Ireland—Queer Yarn from New York—Boers Capture an Earl.

### THE QUEEN LEFT FOR IRELAND.

London, April 3.—Queen Victoria, who left Windsor Castle at half-past nine last evening, en route for Ireland arrived at Holyhead at 9.10 a. m. to-day. Her Majesty was accompanied by a large party which was presented to her and then boarded the royal yacht Victoria and Albert, which, piloted by the Irene and escorted by the royal yacht Osborne and the cruisers Galatea and Australia, then steamed out of the harbor for Kingston.

### QUEER STORY FROM NEW YORK.

New York, April 3.—Speculation is rife in this city and also at Washington, according to despatches from that city, as to whether it is true that Captain Carl Reichman, an American officer, was commanding the Boers who captured the British convey Saturday, and also whether the officer is Capt. Carl Reichman, United States Military attaché sent to Que Transvaal on January 5th last. The latter proposition is deemed extremely improbable. If Capt. Reichman should join in the fighting without first resigning from the United States, he would be liable to court martial on his return. An officer would be dismissed from service in disgrace if he joined the Boers while still holding a commission under the United States.

### MOORE ABOUT BUSHMAN'S KOP.

London, April 3.—The War Office has posted a despatch from Lord Roberts, reading as follows: "Blenheim, April 2, 1900 p.m. In continuation of my telegram of March 31, there has been considerable delay in getting accurate returns of the casualties, as the action took place 22 miles hence. The telegram cable has been interrupted several times, cloudy weather has interfered with his signalling and although there has been no engagement since, the force is continually in touch with the enemy. There were many acts of conspicuous gallantry displayed during the day, 'Q' Battery remained in action under a cross fire of 1200 yards for some hours, the officers serving the guns at the casualties reduced the detachments. Several gallant attempts were made to bring in two guns, the teams of which had been shot, but at each attempt the horses were shot. The Essex, Munster, Shropshire and Northumberland Mounted Infantry and Roberts' Horse covered the retirement of the guns from that position to the crossing of the waterworks is taken as an indication that they intended to make a stand sufficiently long to cover the withdrawal of guns and were to a place of safety, although the absence of definite information regarding the movements of Gen. French's cavalry make it difficult to estimate their chances of success."

### HER MAJESTY IN IRELAND.

Kingstown, Ireland, April 3.—Queen Victoria arrived here at 2 o'clock. BOERS HAVE CAPTURED AN EARL.

A despatch from Maseru, Basutoland, dated Monday, April 2, says:—The Earl of Rothes, who is visiting, was in the way to the Cape Mail in South Africa, and who left there April 1st on his way to the Cape. N'chu, has probably fallen into the hands of the Boers. A despatch from Pretoria announces the arrival there of 25 prisoners, mostly residents of Ladybrand who were seized when the Boers forced the British to evacuate that place.

The German liner Koenig has reached Lorenzo Marques, this time having on board 257 passengers bound for the Transvaal.

### AND HAD FOR SOME HOURS SUFFERED FROM

The commission of the deed was not a great surprise to some who knew the man. He had been taken his life. The cause assigned for carrying out this heinous crime was that the unfortunate man was about 38 years of age and was a carpenter by trade. He was born in the village of Plainfield, but had resided in the city for the greater portion of his life. He was a very good man, and had been engaged with a number of our best workmen and builders to do work. A wife and one son, Perry, survive.

### BOYS' EASTER SUITS.

The Oak Hall are now well prepared for the sale of boys' clothing for Easter. To-day we opened out another large lot of Sanford's celebrated suits for the little lads. They are, as usual, the best value in the market. We show you ten boys' suits where any other store can show one. You may as well have the good assortment to select from.

### Police Notes.

John Mitchell, for being drunk, was fined \$2 or 1 month. He was allowed to go, but on condition that he should appear with refusing to pay him wages allowed him. The parties reside in Tremont. He was dismissed as the defendant had paid plaintiff all that he was owed. F. O. O'Flynn appeared for the defendant.

### SHOE DRESSING.

For spring we have a complete range of shoes polished—VERMILION & CO.

### Applied for a Stretcher

Col. Ponton has made application for the light field stretcher and equipment. This is for the purpose of giving instructions in ambulance work to the army medical corps, Canadian.

### "The Better Part"

Of value is discussed in the latter part of the treatment of disease in the blood. H. H. Sampson's theory is that the body takes the time to say they are kept healthy by the reason it is because this medicine expels impurities from the blood, rich and healthy.

The non-irritating cathartic—Hood's Pills.

## THE LIGHT QUESTION

Again Looms up as a Very Live Matter, Indeed.

A By-Law Introduced Which Will Bring Things to a Head—Council Will Have Another Conference With Mr. Pearson—Ald. Grills Wants to Repeal the By-Law re Building Granolithic Sidewalks.

The light question loomed up again at last night's session of the City Council, and the members gave evidence of an intention to treat the Trenton Electric people in a spirit of fairness. A by-law was introduced by the Mayor, which, if it passed, would put matters back to where they were before the present agreement with the Trenton Electric was entered into, but it was decided to have another conference with Mr. Pearson, and see if an amicable agreement could not be reached. Ald. Grills wants the by-law re granolithic sidewalks repealed.

The following members were present: Mayor Johnson, Aldermen McFee, Grills, Pantier, Chown, Doyle, Bogart, Sinclair and Clarke. After the reading and approving of the minutes of the last meeting, the following communications were read: From Col. Ponton, of the XV. Batt., stating that the battalion had received an invitation from Kingston to participate in a military demonstration in that city on May 24th. He desired to know if the city intended to have a celebration here on that day, in which event the battalion would not go away.

From the Walker Foundry Company, asking that they be granted \$4 per month for allowing carts to use their premises.

From Mr. C. C. Leavens saying that his property near the wharf had been damaged by water, owing to a drain being blocked up. He asked for \$50 damage.

A petition was presented from a number of ratepayers on Emily street, asking for a drain on that street.

Mayor Johnson read a letter which he had written to the tax-collector, being as follows:

Belleville, Ont., Mar. 27, 1900.

Mr. J. W. Butterfield, Collector of Taxes, Belleville.

Dear Sir,—You have doubtless seen in the local papers a copy of the statement I presented to the City Council at the meeting held on March 25th, 1900, in which, along with other information, I showed from the latest Government returns the arrears of taxes in nine of the municipalities of Ontario. In a message accompanying the statement I drew attention to the very unfavorable showing made by Belleville. I request that you will kindly read over the figures and the comments I made.

It is the duty of the collector to collect the taxes promptly, and exert himself and give his time to do the work. Viewing the figures of the taxes in arrears in Belleville, as compared with other places, and looking at the large amount paid by this city to the bank for interest on loans, I am reluctantly constrained to say that the necessary time has not been given and the requisite exertion has not been made. Yours faithfully,

J. W. JOHNSON.

Reports were presented from the Executive, Public Works, Fire and Light, Market and City Property Committees as already published.

On motion, the council went into committee of the whole on reports, Ald. Grills in the chair.

The Executive Committee's report was first taken up and the various items of expenditure recommended to be paid, were passed.

The Market Committee's report was passed, also the recommendation that the rebate to Mr. J. W. Vandervoort, market lessee, be not entertained.

The clause in the Public Works report, as to the purchase of a carload of scavenging, caused some discussion.

Ald. Clarke asked if the color would be obtained by tender, or had prices been obtained. This, he considered, was very important.

Ald. Doyle thought that the report should be qualified by stating that it should not exceed \$10 a thousand.

Ald. Clarke moved that it be accepted subject to the approval of the Mayor and the Chairman of Public Works.

Ald. Sinclair moved that the original report of the committee be adopted—Carried.

On motion the committee rose and reported. The report was read and adopted.

Under the head of enquiries, Ald. Doyle asked the Mayor if he was aware of the fact that the Water Commissioners had to report to the Council quarterly as to receipts, expenditures, etc.

Ald. Doyle is not so aware. If he had known it all about this has to do with the water supply.

## Taste and Art...

"All men are in some degree impressed with the face of the world; Some men even to delight. This love of beauty is taste. Others have the same love in such excess that, not content with admiring, they seek to embody it in new forms. The creation of beauty is art."—Emerson.

This same art and beauty can at all times be found in display at our store, whether it be in our

Art Wall Hangings, Art Pictures and Pictures Framing, Art Bells, Art Stationery, Art Fancy Goods.

In everything we handle, indeed you will find the touch of art, even in the cheaper lines of Wall Paper, you will detect it.

JUST ALIKE.

The Toronto Globe and that "Only religious" daily in Canada, the Montreal Witness, are the most complete pair of political journals to be found among the Grit press of the Dominion. Under the rule of fairness and honesty they report and promulgate a falsehood, and no matter how often it may be denied and shown to be wrong, it is repeated over and over again with such unctious as if it were true, at the hope that someone will believe it.

In an article dealing with the Senate, the Brockville Times truthfully says:

"It is true the Senate costs something, but when it killed the Yukon Railway and the Drummond County Railway, it cost more than justified its existence and very materially helped to pay the direct cost of the second Chamber."

Upon which the truthful James of the Globe says:

"The Senate did not kill the 'Drummond County.' It sent the measure back to the Commons on allegations of corruption, and when a Parliamentary investigation was made the Conservative leaders got up in the committee and denied that corruption had ever been charged."

In the Globe ignorant of the facts or does it misrepresent them for the purpose of deceiving its readers? We incline to the belief that the latter reason is the policy of the Grit organ.

The Senate did "kill" the first Drummond County Railway bill, by a six months' hold, on the ground that the bargain was a bad one, and should not be ratified. When the second Drummond County bill came before the Senate it was shown of most of its objectionable features, and after full amendments in the interests of the Country, it was allowed to pass, and a sum equal to a million of dollars saved to the Dominion.

Of course, this did not meet the approval of such journals as the Globe and Witness, for reasons which the "machine" might explain, or probably the "Tarte" \$20,000 organ could shed some light upon the inner workings of the whole scheme.

Had the Yukon Railway deal gone through, not only would the Dominion have been victimized to the extent of

THE IDOL OF THE TURF

The Most Popular Jockey in America and England Recommends Stuart's Dyspepsia Tablets.

No jockey has ever appealed so strongly to public favor as Tod Sloan. Not satisfied with his success in his native country, he went to England, and now his fame as a successful horseman is on the tip of every tongue, not only in this country and England, but in every section of the globe where racing has found favor.

When Tod first went to England his tenacity was openly laughed at, and the little American played skittles with his English rivals, and the victories made all England gasp.

Having the stamp of royal approval, "lionized" him, and he is fêted and petted to an extent that would turn an ordinary mortal head.

The great jockey was in such demand socially and at dinner and wine as to the extent that he was feared his health would give way. Two months ago he was told on him.

A two weeks' trip to America made him acquainted with Stuart's Dyspepsia Tablets and their remarkable restorative effects on a depleted digestive system, and he recommended them in unqualified terms to a friend, saying, "Stuart's Dyspepsia Tablets are the best thing I know of for keeping the stomach in condition and for keeping it in good repair."

Thousands of former dyspeptic can vouch for the truth of Tod Sloan's words, as "Stuart's Dyspepsia Tablets" America, and few families are without them. One or two taken after every meal keep the stomach active by causing the healthy digestion of food.

Perfectly healthy people use them to keep their health and to make sure that no ill effects will follow an unusually heavy meal.

Your druggist will tell you or your dealer either that Stuart's Dyspepsia Tablets are composed of purely digestive ferments, Acetate of Potash, Pepsin, fruit acids, etc., and for the strong stomach as well as the most delicate, constitute a safeguard against indigestion and stomach troubles.

millions, but there would have been a carnival of "machine" work to ensue, even by the most fastidious. Moreover, certain revelations.

Now for the other trial light. The Montreal Witness is horrified at the action of the Senate in throwing out the Gerry-mander bill, and heads its article "The Shame of the Senate," and then goes on to say:

"The object of the present redistribution bill is to re-organize the constituencies. And the method of the bill could not be fairly as a result of the action of the Senate."

A whole lot of people could be seen on the banks of the river this morning, trying to catch some fish for their Good Friday dinner.

If that rumor about Baden-Powell is true we should all go into mourning.

The death of that resourceful, indomitable man, who may be said to be the bright particular star of the campaign for a new bridge, will be a personal loss by every loyal Briton.

Our Rosemore correspondent says there is a large crowd of trout this spring.

Some voices do more of the singing, which is a sure sign of thunderstorms.

From all reports, the provisional installation at Halifax had taken very kindly to the idea.

The boys will come down to it by-and-by, and they'll be all the better for it in the long run.

Toronto Star: "A most curious sight is called to public attention by the Belleville Intelligence, as follows:—

"Oh, what a curious sight we see from observations here."

That boy we once stole apples with now is older in a church.

That's rather a mean advantage to take of a fellow when he's only philosophizing, but stranger things than that have happened."

Much amusement has been caused in Dublin by the knowledge that some of the most rabid of the Home Rule faction who themselves stayed away from the Royal reception had to get tickets for their wives and other lady members of their families.

In reply to a letter from a woman at New Haven, England, asking for a definition of the term "Absent-minded Pegasus," Rudyard Kipling's secretary writes: "Mr. Kipling desires me to say in answer to your letter, that the term 'Absent-minded Pegasus' is one used by private soldiers themselves when they have forgotten any small duty, and beggar is a generic term of endearment."

If Mr. Webster Davis, a specimen of whose oratory appears in the Washington letter on our second page, could be induced to come over to Canada and give his lecture, he would hear something new.

It would be interesting to know just how much old Paul Kruger is paying Davis for telling those blooming falsehoods.

The chances are things will bloom in Ireland since the Queen left some time ago—have patience.

A funny story comes from—well, never mind. It seems that a thousand known gentlemen, not a thousand miles from here, has just purchased a vapor bath, and the other day he wanted to give his better half the benefit of it. It was his first experience and he must have got it pretty hot, for the good lady complained exceedingly. The gentleman soothed her by telling her she was nervous, but at last human nature could stand no more, and the suffering lady rose in her night and kicked over the apparatus. The case was so serious that a doctor had to be sent for, and since then the patient can't sit down in the easiest chair in the house.

Editor Young of the Trenton Courier had a narrow escape. An engine fell on his leg and at first it was thought the bone was broken, but the general editor has been pulled so much by delinquents that it is now thought it is a dislocated joint, and having a few bruises, he came through all right.

Nature cannot do all. Clear your system with Laxa-Cath cathartic tablets. Druggists, 25 cents.

### HAY WANTED.

Market for 1,000 Tons if Requirements can be Met.

There is a chance for our farmers to find a market for their hay, as the British government want all they can get, but an insurmountable difficulty seems to lie in the way. If the farmers can press their hay in bundles of 100 lbs. each, the size to be 32 inches long, 22 inches wide and 12-14 inches thick, they can meet the requirements, but good judges tell us they believe that to be impossible with the appliances at present in use in this part of the country. If farmers can fulfil these conditions they will find a market for 1,000 tons hay at the present time.

He may be trying to make a little more money, and sell a cheaper Tire.

But you won't take poor rubber and poor fabric when you can get Dunlop Tires at same cost.

About the best advice that can be given to readers of new news just now is—have patience.

A meeting of the Water Commissioners, composed of Mayor Johnson, Messrs. Alford and W. Aylesworth, in company with Mr. J. P. Thompson, City Treasurer, yesterday afternoon had a conference with some of the Grand Trunk Railway officials in reference to the supplying of water to that corporation. The G.T.R. was represented by Mr. McMillan, of Montreal, Mr. W. S. Yergon, Locomotive foreman here, and Mr. John Bell, G. C. solicitor.

The railway company acknowledged the outstanding of old account, and agreed to pay it up in full. The company also stated that the present plant for filling the engines being obsolete and a considerable waste of water taking place owing to leaking in pipes, stating that a new plant would be put in and a large tank erected in the east and west ends of the yard which would hold a large quantity of water.

The company also desired to make a new contract offering the commission \$1,500 per annum for an unlimited quantity of water. Under

Second, as to taxation.

As to pledges, see the convention platform quoted above, and the declarations of leaders, great and small, and of organs, great and small, that taxation was (preventing immigration, was driving out millions of Canadian and "bleeding white" those that remained.

The answer: See pages X's and XXXI Public accounts 1898 and Canada Gazette, Customs and Total Rev.

| Year      | Revenue      |
|-----------|--------------|
| 1895-1896 | \$38,412,272 |
| 1896-1897 | 39,612,282   |

If they say that they have reduced the tariff, answer: On most articles in the former tariff you made absolutely no change; on many you actually increased the rate; on the majority of those you reduced the rate, the reduction was so small that it was for no return whatever; on nine-tenths of the articles the preferential rate does not apply, as the tariff is a tariff, and that portion to which it is applied, the effect has been to appreciably increase the imports, and lastly, the percentage reduction 7-10 of 1 p.c., in goods practically little or no benefit.

Third, as to tariff protection.

Here are some of the pledges:

We denounce the principle of protection as radically un-Canadian and unjust to the masses of the people, and we declare our conviction that any tariff changes based on that principle, must fail to afford any substantial relief from the burdens under which the country labours. This issue we unhesitatingly accept, and upon it we stand, with the full confidence of the people of Canada.

We will tax for revenue, but not for protection. Taxation is an evil that should be reduced to the minimum, and when it is reduced to the minimum, it should be removed. We will tax for revenue, but not for protection. Taxation is an evil that should be reduced to the minimum, and when it is reduced to the minimum, it should be removed.

It is a pity that the question of preferential trade has been so long and so fruitlessly discussed. It is a pity that the question of preferential trade has been so long and so fruitlessly discussed. It is a pity that the question of preferential trade has been so long and so fruitlessly discussed.

nor less than a deliberate, legalized and organized robbery; and that the very high road to political slavery, first, and industrial slavery afterwards.—Sir Richard Cartwright.

Your policy from first to last has been to destroy the villainous system of protection by free trade, a revenue tariff, or continental free trade.—Sir Richard Cartwright.

HOW THEY HAVE KILLED IT.

What have they done? Let Mr. Sifton answer:

The tariff was a question that was settled, and was now a dead issue, because the Liberals had succeeded in selling this great question, and the tariff was now a dead issue, because the Liberals had succeeded in selling this great question, and the tariff was now a dead issue, because the Liberals had succeeded in selling this great question.

On goods imported for home consumption, both dutiable and free, the "robber" tariff has been reduced, taking the three years since 1896 as compared with the average for 1890 to 1895, 34.10 of one per cent. of one per cent. in 1896 and 1897.

It is a pity that the question of preferential trade has been so long and so fruitlessly discussed. It is a pity that the question of preferential trade has been so long and so fruitlessly discussed. It is a pity that the question of preferential trade has been so long and so fruitlessly discussed.

"There is a class of our fellow citizens who ask that all such conditions should be made for a quiet pro-Canadian Government has ignored all such conditions. It is a free gift. We ask no compensation. Protection has been the curse of Canada; we would not see you under its baneful influence, for what weakness you must weaken."

Then he denounced the Cobden model and smiled at the deluded Canadians. Then he returned and, according to Mr. Tarte, he chanted firmly in the statutes the "grand principle of the tariff" viz, that the tariff was to remain sufficiently high to afford ample protection ("the curse of Canada") to Canadian industries.

Fifth, as to Reciprocity.

As to reciprocity:

Mr. Davies preached it in the Maritime Provinces, Sir Richard and John Charlton in Ontario, and Mr. Laurier everywhere. He found little support in Parliament by the whole strength of the Opposition. It was wholly stated that the Tories could not get it, but that they were waiting for a better opportunity.

Let me sum up from the past but one voice among the many, "let us forget," the voice of Sir Richard Cartwright.

The fact is plain, and clear, and simple, the best market for the article you produce is in the hands of the Almighty, let it be in the country which extends to the south of you, separated generally by a merely imaginary line along the 49th.

Well, they attained power. Four of them—in the good old Conservative Party—went to Washington and brought back a resolution in 1893 providing for a reduction of the tariff on wheat and flour. It was a resolution that was passed by a majority of 133 to 100.

the electorate decided and these gentlemen have not the common honesty to confess their error and ask forgiveness.

"THE CANADIAN CONTINGENT."

In the summer of 1897 was witnessed that unique and never to be forgotten spectacle, the celebration in London of the 60th year of Her Majesty's reign.

Sixth, as to Debt and Railway Subsidies.

The debt was to be at least held stationary; it has been increased by \$6,000,000.

Old and lapsed subsidies have been renewed, and in the two sessions of 1897 and 1898, \$100,000,000 in railway subsidies have been voted. Lines have been duplicated and tripled, and a great number of new lines have been constructed.

Seventh, as to Parliamentary Independence.

Parliamentary independence was demanded by the British Colonies.

Before the 1896 elections were well over a letter signed by Wilfrid Laurier and sent by Mr. John D. Macdonald, was delivered to the Hon. J. M. Macdonald, M.P. for Quebec, proposing him to the Government of Quebec or a judgment. For two sessions Mr. Laurier sat in Parliament with that promise in his pocket, vainly asking its fulfilment and voting manfully for the Government. A revolt was necessary at last, and ultimately he was made a judge of the Superior Court.

Eighth, as to Reducing the Cost of Government.

The cost of Government was to be reduced.

From Mr. Laurier down this policy was unanimously advocated. Mr. Macdonald moved a resolution in 1893 providing for a reduction of the Government's expenses. It was a resolution that was passed by a majority of 133 to 100.

Liberal-Conservatives and removed at once by a promise of his support all party opposition. Reeves, Mayor, representative men of all ranks remonstrated and the whole loyal spirit of Canada rose in rebuke of the threatened disaster.

Five days were sufficient to bring the Government to its senses and it was decided to allow 100 volunteers to be enrolled with the Government's approval.

Transport was provided to Africa, thereafter Canada's duty was to cease. Do it last-cumpled by fear, not prompted by love—the Government yielded to Canada, first in the march to the front, then in the march to the rear.

In July, 1890, an unique scene was witnessed in the Canadian House of Commons. Sir Wilfrid Laurier moved in eloquent terms the adoption of a resolution in sympathy with the wrongs of the Uitlanders, and with Britain's purpose to redress them.

From July to September, 1901, one after another of the British Colonies called their offers of assistance to the British Government, and these were accepted with the least hesitation by the Mother Country. All Canada over, loyal people were wondering what strange paralysis had overtaken the Government, and all the world over England's enemies were watching to acclaim the wretched failure.

"There is no message to Canada, and although we may be willing to contribute to the Mother Country, we do not see how we can do so without Parliament's granting us the money. We simply could not do anything. We should have to wait for the Mother Country to furnish a contingent, and the question for the reasons I have stated."

Then the Premier, having thus delivered his mandate, hurried away to Chicago. In Mr. Tarte's paper-owned by his sons—without doubt, speaking his mind appeared categorical demands that the Government would send any troops, and it was not until the 13th of October that the Premier returned.

And there it did stand until the thirtieth day of October.

of the Canadian volunteer who impelled his life to save his country from disintegration, the gentleman who, in 1891, preferred the Yankee dollar to the English shilling, and fought to raise the separation of discrimination against the Empire in the defence of the flag in South Africa. And in that decision he was supported by every one of his Cabinet, from Mr. Macdonald to Mr. Tarte.

And that decision would have ruled, but that, opportunely ever, the heroic fourteen gave way to save their political position. They loved the law, they loved the constitution, they loved the Empire, and for fear of losing that they came down when the danger signal was put up.

Does any one suppose that had a Liberal Conservative Government been in power, one moment of hesitation would have been shown, or that Canada would have failed to be first in peril as she was first in faith?

Why did the Laurier Government decide not to cooperate with the Mother Country? For that was the deliberate decision, clearly announced by its best-by both the British and the Canadian press.

Now when faced with bad faith they stand up in the full light of day and utter their words of defiance. They have redeemed every pledge, or, with a wide smile, they have broken every promise. They have broken every promise, they have broken every promise, they have broken every promise.

There is no less than 96,235,938 greater than was spent by the Conservatives in 1890, and that the taxes levied on the people in 1891 were levied upon by 87,100,000, and the taxes levied upon by 87,100,000 by the Conservative Government. Add these two figures together, that is the total tax (tantum, and you have the sum little sum of 173,300,000 as evidence of the growing crime against Liberal economy. Give me a pleasant reflection for those who looked forward to economy in a change of administration. They are wrong, but in the wrong direction. Do not forget that the expenditure given as the product of the Conservative present is the Finance Minister's present estimate only. What the figures may be when the first, second and third supplementary estimates are brought down no mortal can tell.

**JOS. MARTIN'S CABINET.**

The Colonel of Victoria, B. C., writes Fighting Joe's Cabinet as a case of "Curio." In description of the latter's main objective, he writes, "Justifies the name, of course of course, Mr. Martin, he being the most incomprehensible 'Curio' of them all."

Here is the Minister's portraiture of the 1.—Martin, Joseph; came from Manitoba, remarkable for his rowdiness, and his putting his foot in with some one; served the people, he says, in the most efficient manner, he was too obnoxious to the powers that be, when he was in the Government, he had a severe fight to clear out and let the dear people fight their own battles, he was too big for the space he occupied in the Government in Canada.

2.—Yates, J. Stuart; native born, no experience for nothing in particular.

3.—McGill, Smith; came from Manitoba; deaf; never did anything worth talking about.

4.—McGill, George; Washington; imported from the United States; deaf; came to Canada to do nothing whatever in public life; ran for the office of reeve and lost; no experience, no character, lack of popularity.

5.—Ryder, John S.; imported from the States; called "Cheep John"; ran for mayor of Cumberland and was defeated; was afterwards a clerk in a grocery store, ran a little shop, sold it and came back to Canada; John has also some experience that anybody knows.

This combination of experience and lack of experience, man-like, man-like, the Lieut-Governor. Well say the Colonel exclaim:

In all seriousness, the affliction of the Lieut-Governor, the people of British Columbia is the greatest kind of an outrage. An affliction of this kind is not very often seen.

**TEMPLE TOPICS.**

The St. John Telegraph says: "There is no universal human appetite—the love of a lie, something other than the simple undombed image of truth." As the Telegraph is the organ of the press, it is not a little curious to find it so. I evidently tell what it believes to be the truth.

What's the matter with the weather man? He gave us Christmas weather on Good Friday.

An indignant subscriber (a lady) says she thinks Canadian newspapers should not publish such stuff as Webster Davis' speech, which appeared in our Washington letter on Thursday last. But why not? The fact that immense crowds will gather to hear a man tell lies of that kind is a most important matter and it is good for Canadians to know it. Why shut our eyes to the fact which is as plain as the sun at noon? The great mass of the United States people are only too willing to listen to falsehood about Great Britain. When the Spanish war began, and Great Britain attacked Cuba, the newspapers of the United States would have cocked Yankee pride into a cocked hat, Brother Jonathan was full of gratitude, but the sound of his guns was dead away before him, his gratitude, and in doing so carries out the prophecies made by many journalists in this country. The Intelligence of the absolute truth, I hoped that after this trouble in over Canadian statesmen may find something better to do than make

### TIMELY TOPICS.

Speaking this morning to a gentleman who has been trying to work out the Queen's Birthday Celebration, he said there was no difficulty at all in getting subscriptions for it. Everybody who spoke to him seemed to be in favor of it, but hardly anybody wanted to take an active part.

That is not all it should be. Of course, somebody has got to stand in front, but it strengthens their hands to think that an interest is taken in the matter by the citizens as a whole.

A successful celebration would be a good thing for the city in more ways than one. It will move the citizen, which some cities exist, to go to another city to spend their money, and it will give the rising generation a chance to have loyalty instilled into them in the time of life when such things stick.

There is a meeting of the committee at the Anglo tonight. Turn out and show you are a loyal man and have the interests of your city at heart.

"What do you think about the Queen's Birthday Celebration?" and the Intelligencer to an editor (this morning). "I think it's a good idea," was the reply, "though perhaps it's a little late now. Still, there are five weeks, and if the committee in charge will be satisfied with moderate things, and not aim too high, I think it can be carried out successfully."

And why not have an old-time celebration? Let the youth, and the foreign and the different societies parade in the morning, winding up with a few de jure at noon. In the afternoon have sports and a fancy drill by the clerical and youngsters, the High School Cadets, and at night go down to Victoria Park and have a dance.

God Save the Queen.

Kingston Whig.—In South America there is a race of cats which doesn't know how to mew. Belleville citizens would enjoy this breed. If cats did not yowl and dogs did not yowl, Belleville would be a more pleasant place to live. If the fellow who wrote that ever comes this way we will set the dogs and cats on him. There will be all sorts of wigs on the green, then.

Some of the new spring hats look as if they had a brick in them.

Sir Alfred Milner is anxious to see British women get out of South Africa, but Kruger would be satisfied to see the men go.

Rev. Mr. Weeks, who lectured in the Baptist church last night, has refused an offer of \$10,000 a year to go to New York. Canada is good enough for him.

Writing to the Ottawa Journal from Bloomington a member of "D" Co. said, among other things: "The last camping place before Bloomington was a flock of spring lambs round the foot of the kopje. Billy Morrison, an old-time hunter for Matthews & Co., was on the war path in a minute with blood in his eye, while following close on his trail went Billy Swan and young Lynn of Kingston. About ten minutes afterwards everybody was taking a walk with a canteen lid and was seen returning later with a good pound of fresh lamb." The "young Lynn" mentioned in a Belleville boy.

Toronto Telegram—"Canada's foot will tremble at the name of the 15th Battalion of Belleville in being armed with a brass band in addition to Maxim guns and other offensive weapons." The most offensive weapon in Toronto is the pen of the Telegram paragrapher.

Among the supplies demanded by Gen. Otis, the United States commandant in the Philippines, were one thousand handkerchiefs and legions to see United States soldiers who have become insane while on service there. A large number of the soldiers have returned home insane owing to their experiences in the Philippines.

The British are said to be berating the Paris Exposition. Large crowds of Boers are conspicuous by their absence, too.

If the Prince of Wales comes to Canada again it is not probable that he will do when he was in 1897. The Prince has travelled quite a distance then, and may not be so ready to know his way now.

Eleven children in one family were down with the measles in Toronto, says our "Herald." The correspondent would say, "It's up to the old folks now."

## We Do Not Know

Whether you are a wearer of custom-made or ready-made clothing, but be you a patron of either a merchant tailor or a clothier, we want to say to you that there are advantages in Quick & Robertson's suits that will pay you to consider.

In the first place, they equal fully in all the essentials of style, fit and durability, merchant tailored work, for which we intend it as a satisfactory substitute.

Secondly, their superiority in fabrics, fit and finish recommend them above all ordinary ready-made suits.

For gentlemen who wish to be correctly dressed, yet do not desire to pay fancy prices for their clothing, these suits are intended.

## Men's Spring Suits

\$3.75, \$5, \$6.50, \$8, \$10, \$12, \$15.

It would be very tedious to read the descriptions of all the different suits at these prices. You do not know, perhaps, we have suits of the same fabrics as the best merchant tailors are offering; we have and they don't like it a bit. Some of those well Scotch effects in chevrons are exclusive with us. Undressed Worsteds in sack suits are very fashionable for spring wear; the Cambridge Gray will be a popular color, we have it in suits from \$5 to \$12.50.

Blue Serges will be as popular as ever this year, and why shouldn't they be? There is nothing more serviceable, comfortable or beautiful for men's spring and summer wear. Ours are guaranteed unfadeable—that applies to the suits from \$6.50 up.

## Thin Babies

often develop into weak, delicate, backward children; undersized, nervous, feeble, adults. Lack of nourishment is the cause.

**Scott's Emulsion** is the remedy. A little of it three or four times a day will do wonders. The pinched, sad faces become round and rosy; the wasted limbs plump and firm. If your baby is not doing well, try this great food-medicine.

What is the blue on your flag, boys? The waves of the boundless sea. Where our vessels ride in their lamplight pride.

And the feet of the winds are free. From the sun and the smiles of the coral seas. To the south and North. With dashing tread through tempests dressed.

What is the white on your flag, boys? The honor of our land. Which burns in our sight like a beacon light.

And stands while the hills shall stand. Yes, dearer than fame is our land's great name.

For the mothers and wives that pray for the lives Of the brave hearts over the sea.

What is the red on your flag, boys? The blood of our heroes slain. On the burning sands in the wild waste lands.

And the froth of the purple morn. Of the brave hearts over the sea. We'll stand by the dear old flag, boys! Whatever be said or done.

## DOMINION PARLIAMENT.

Five Ministers' Reports Not Yet Brought Down—Jim Southernland Landed Up.

Ottawa, April 21. — Yesterday, the 17th day of the session, still saw the Government unimpaired by the vote, and in answer to members it was admitted that the reports of the Minister of Justice, the Minister of the Interior, the Minister of the Navy, and the Minister of the War had not yet been brought down. It was promised that they would not be long put up as soon as the great day of printing began lighted somewhat.

The Argentine Cattle Embargo. Mr. Baurant wanted to know if the Government was aware that the importation of cattle from the Argentine Republic, because a certain shipment of American cattle in Argentina had been found to be infected with the disease, had been suspended. He also said the Argentine Republic had been found to be infected with the disease, and the Argentine Republic had been found to be infected with the disease.

Mr. Sutherland, acting for the Minister of Agriculture, said the Government was aware of the facts, and had called Lord Strathcona for information. Lord Strathcona had replied that the Argentine Republic had not had the disease when they had shipped from the United States, but had contracted it while on board a ship that had been previously infected with the disease.

Mr. David (Hulton) resumed the debate on the budget. He dealt principally with the preference tariff and he claimed that such tax operated very injuriously to the farmers of the Dominion.

Mr. Sample (Wellington) said Mr. Henderson's speech was amusing, because of its inaccuracies in fact and figures.

Mr. Monk (Jacques Cartier) argued that historically and logically British ought to give a preference to the colonies. France and Germany had after the war given preferences and England had, up to 1848, The Continental policy was therefore, a reasonable one and bound to be considered by the Imperial authorities.

He was speaking at 12, when the House adjourned.

## THE GOLD COAST OUTBREAK.

Three Hundred Nigerian Troops Go to Assist the British.

Lagos, British West Africa, April 21. — Three hundred Nigerian troops have been dispatched overland to the Gambia country, northwest of Ashanti, where the British resident reports a recurrence of the troubles which necessitated the expedition of last year. One hundred and fifty troops are proceeding from the gold coast.

There are unconfirmed rumors here of trouble with the French at Moko, in the Yoruba country, in the neighborhood of the Dahomey frontier, owing to the distance, however, it is hardly to be connected with the troubles in Ashanti and Gambia.

The Attorney-General said he would prefer to abandon the whole bill rather than give up this clause.

Mr. Whitely made a thoughtful speech. He should be no inconsistent on matters of this kind, where in regard to the common man who had a little more sympathy with the common man than with the man who considered that the common man was no better than a dog.

The clause was pushed through. The committee reported progress, and the House adjourned at 11.15.

"RIDE A MONARCH AND KEEP IN FRONT."

The Canadian Monarch Catalogue shows six locally-guaranteed Monarchs. Over sixty thousand Monarch bicycles were sold last year, and the 1900 Monarch has been so improved that we are putting in the \$40 Monarch the crankholder used in the highest grade Monarch of 1899.

The Monarch bicycles include these lines: Models 88, 87, Light Road—\$50. Models 74, 73, Chainless—\$50. Models 84, 83, Road—\$40. Models 85, 86, Light Road—\$40. The chainless Monarch is fitted with adjustable pinions, which have the advantage that it is unnecessary to "dig into" the machine to reach the adjustment. By making use of the spacers furnished with tool kit, the adjustment may be perfected from the outside of the gear case almost instantly. All lines of the Monarch are perfect. Everything is robust, and there are no places where dust can gather. The handlebars are all adjustable and liberal options are given in every essential.

## A Lot Of Little Things

Come from the Seat of War To-day,  
But Important News is Scarce.

**Boers Driven Away from Wakkerstroom—Boer Prisoners  
Recaptured—Randall's Advance Closely Contested  
by the Boer Forces.**

**BOERS DRIVEN OFF FROM WAKKERSTROOM.**  
Wakkerstroom, Sunday, April 22 (evening).—After yesterday's shel-  
line it was expected that the Boers would open again, but Col. Bra-  
hazon, with the Voornberg, made a thorough scout to the left. The Boers  
endeavored to turn the British right but the movement was deterred by  
the Voornberg and Mounted Infantry, and the guns opened fire and  
drove them off, greatly extending the position. None of the Boer guns  
were in action. There were no British casualties. Many of the  
Boers are moving southward.

**HURD OF WAR NEWS FROM LONDON.**  
London, April 23.—Gen. Buller is evidently advancing slowly to-  
wards Weyers, every step being closely contested by the Boers. From  
the Republic side there is a good deal of interesting news to-day.

A Taba N'Chas despatch dated Friday, April 20, reports the arrival  
of the Commandant De Wet and Villiers and an attack upon the  
thousand British under Gen. Gatacre. The latter, of course, is a mistake,  
and probably Gen. Buller is referred to. The British, it is ad-  
ded, occupied some kopjes but their left wing was driven back. The  
Boers lost one man killed and five wounded.

From Brandfont comes the news that on Saturday, April 21, a British  
patrol of ten men ventured near that place and suffered the loss of  
one man killed and two men captured, including a Free State, who  
was leading the party.

A Pretoria despatch, dated April 21, says the latest official news was  
that fighting was proceeding within half an hour's ride of the Weis  
Dorp, with no results.

The Transvaal Government, it is added, has asked Lord Roberts to  
be allowed to send a detachment to St. Helens, and also a neutral Consul  
to watch the interests of the prisoners in the same manner as Mr.  
Adair's. It is said that the interests of the British at Pretoria.

A proclamation has been issued prohibiting the working of the  
mines on Sundays and inflicting punishment on managers paying over  
a pound a month to natives.

From Ladysmith to-day comes a despatch saying all is quiet and that  
the Boer guns are silent.

There is nothing further from Bloemfontein to indicate the pro-  
gress of the preparations for the main advance.

At Cape Town a Government contractor named John has been ar-  
rested for harboring three escaped Boer prisoners disguised as clergy-  
men. The prisoners were sent back to Simonstown, where they had  
escaped.

**MRS. MARCUS LAZIER DEAD.**  
A Former Well-Known Lady Dies at  
Oakville.

A telegram was received in the city  
yesterday, by relatives, announcing  
the death of Mrs. Marcus Lazier,  
which had occurred at Oakville  
at an early hour on Sunday morning.

Mrs. Lazier, whose maiden name  
was Neal, was a daughter of the late Mr.  
Wm. Neal, and was about 40 years  
old. For some time past she had  
been ill, and her death was not  
unexpected. She was an ardent  
friend of the church, and her death  
will be received with universal  
regret by a large circle of relatives  
and friends.

ever graced our city counters

vestigate. All that is dependable

**St. George's Day.**  
The display of flags and bunting  
in honor of St. George's day, the de-  
votion of the flag on the City building  
the Cross of St. George, and proudly  
in company with the Union Jack.  
From the U. S. Consulate the Stars  
and Stripes were also flying to the  
breeze to commemorate the day de-  
voted to the memory of the brave  
soldiers of England. This evening the  
members of Oxford and Lyford  
Ladies, Sons of England, will cele-  
brate the day by a smoking concert.

## TWO HOMESICK YOUNGSTERS

Who had Mistaken Ideas of Reaching  
Montreal on a Raft. Search Being  
Made for Them.

Two lads, named Ernest Bernard  
and Fred Wilson, aged respectively 15  
and 14 years, have disappeared from  
the homes of Messrs. F. W. Baskard  
and Wm. Phillips, who reside near  
Belleville, and it is feared their  
lives have been sacrificed. It appears  
that the lads in question, both of  
whom came from England, have for  
some time past, been building a raft in  
the air, hoping to return to their  
native land. To a boy in the neigh-  
borhood they stated that they in-  
tended to construct a raft and to  
sail down the river to Montreal. They  
were then going to England. Whether  
they carried out their intention is  
not known, but a raft, roughly  
constructed, was found on Saturday  
floating at the mouth of Bell's  
creek, which empties into the bay on  
the north side, at a point nearly op-  
posite Messrs. Wm. Phillips and  
Messrs. Phillips and Baskard were in  
the city to-day making inquiries, and  
visited places along the bay, where  
they endeavored to find, if possible,  
some trace of the missing boys. The  
above gentlemen fear that the boys  
may have been rash enough to try  
to reach Montreal by water, and the  
raft and thus lost their lives. At  
any rate, no tidings of the boys have  
been heard and their absence has  
caused much alarm.

We are now delivering ice, owing  
to our increased business, and have  
sent wagons, and all customers, in  
any part of the city, may depend on  
getting ice early in the morning. Our  
supply is large enough to guarantee  
customers receiving ice through-  
out the season. We were the only  
dealers who kept our customers sup-  
plied during the last famine year ago.  
Your order solicited. C. C.  
Leavens, 30 Bridge Street, Tel. 231.

**UPSET IN THE BAY.**  
Four Young Men Had a Narrow  
Escape From a Watery Grave.

Shortly before 6 o'clock yesterday  
four young men named F. Lapin,  
A. Brasseur, J. Lynch and  
L. Taylor, were in a row boat in the  
centre of the bay, when by some  
means the craft upset, and the ac-  
cidents were thrown into the water.  
They cried lustily for help and their  
cries were heard on both sides of  
the bay. Mr. Horace Dickson, who  
lives on what is known as Dickson's  
Island, near the Prince Edward shore,  
saw the mishap and heard the cries for  
help. As quickly as possible he made  
towards the young men who were  
struggling in the water, and reach-  
ing them rescued all. They were all  
more or less exhausted and benumbed  
by the chilling water, Brasseur  
especially. Dickson brought them  
the city and in a short time they  
were able to be around apparently  
none the worse for their involuntary  
bath. They had a narrow escape  
from a watery grave.

Don't forget the Schuch concert to-  
night. Greatest musical event of the  
season.

at Green River, Wyoming.

the late Wm. McMaster, died at  
Waterloo, N.Y., on Saturday, aged  
72 years. The deceased was the wife  
of a well-known merchant. She was  
a daughter of the late Mr. Jacob  
Finkle of Sidney, where she was born.

of the late firm of McMaster, Finkle  
and Co., of Sidney. The remains will  
be interred in the cemetery here.

Law-breakers who take to the road and make a business of it, are not only a nuisance to the community, but they are also a danger to the public. They are a source of trouble and expense to the state, and they are a disgrace to the community. They are a source of trouble and expense to the state, and they are a disgrace to the community.

In another column will be found a report of Rev. D. E. Rogers' sermon, yesterday morning. It is full of eloquent periods and poetic imagery, and will repay attention to it. The subject is a sermon on the "Blessings of Peace."

This is how the Toronto Star sees it: "If a Canadian soldier was tied to a cart wheel for stealing from the chicken, or for being a thief, the whole continent might be similarly served. Nearly every letter that is 'commemorated' here, sheep and pumpkins."

Dean Stein is dead, but if it becomes necessary to write a second volume of "Manshuus" Col. Sam could do it.

A lot of Quidnere people have been seeing a bad devil-fish in the St. Lawrence. The stuff they drink, like their story line, is up to the neck in it, and it wouldn't be long before they would be up to the neck in it.

Sergt. S. G. Kendall, 10th Hussars, writes from Ladysmith, "Good old boy, deserves all the praise we can give him. To his tireless energy is due every credit for the splendid work he has done. He has been a splendid soldier, and a splendid man. He has been a splendid soldier, and a splendid man."

Through his ever fresh stream of strategy, together with the patience, endurance, and character which he has shown, he has, I think, saved thousands of lives.

"The time is at hand when this Government, false, rotten and un-substantial, that now sits like a nightmare on the bosom of the people of Canada will awake and the horrible mockery disappear."

MR. BOURASSAN'S \$2,000. It will be remembered that Mr. Bourassan, the member of the House of Commons for L'Assommoir, was appointed Secretary to the Washington Commission without salary. The Auditor-General's report, however, shows that he received over \$2,000 in honorarium, expenses, and the Public Accounts Committee want to know how it was that an unsalaried official could cost so much, so the Committee want him to explain what became of the \$2,000 which he expended in connection with the Joint High Commission. When his name was called he did not answer, and the Committee will have to wait until he gets back from Washington.

AN OBJECT LESSON In a Restaurant. A physician puts the query: Have you never noticed in any large restaurant at lunch or dinner time a large number of heavy, vigorous old men at the tables; men whose ages run from 60 to 80, and who are bald, and all, perhaps, gray, but none of them feeble or senile? Perhaps the appetite is no common one to have escaped your observation or comment, but below it is an object lesson which means something. If you will notice what these heavy old fellows are eating you will observe that they are not munching brain crackers nor gingerly picking their way through a menu card of new-fangled health foods, on the contrary they seem to prefer a juicy roast of beef, a properly trussed loin of mutton, and even the deadly broiled lobster is not altogether ignored.

The point of all this is that a vigorous old man depends upon digestion and plenty of wholesome food and not upon dieting and an endeavor to live upon brain crackers.

There is a certain class of food cranks who seem to believe that meat, coffee, and many other good things are rank poisons, and that, unless one is a healthy individual, he is walking condemnation of their own theories.

The matter in a nutshell is that if digestive juices in sufficient quantity, any wholesome food will be promptly digested. If the stomach is weak, no food, no certain food cause no trouble, and the result is a weak, nervous, and feeble old man, who is a source of trouble and expense to the community.

Let Him Have Some Fun. (Toronto Star.) Quoted stories of the Green Sea circulating in Vancouver, British Columbia, that a certain man had been seen in the waters of the Pacific Ocean, and that he was a source of trouble and expense to the community.

Hammer's Iron Nerve. Was the result of a cold, but it is a powerful and invigorating tonic, and it is a source of trouble and expense to the community.

## CORMAN'S

THE CORNER SHOE HOUSE

Customers' shoes shined free.

Did you hear that the shoe was raised?

The shoe was raised, you know.

They have been holding forth at the City Hall for a couple of days, but the congregations have been small and they have departed in search of greener fields and pastures new.

It would appear to the casual observer that we have churches enough in Belleville to look after the spiritual needs of our people, and many will be glad that the Hornet, in their seasonal and out-of-season, have not got a foothold here.

As the gentle, lovable Autocrat of the Breakfast Table says, "I believe the proper place for a man to show himself a gentleman is in his devotion." Now please don't think that we mean to insinuate the Hornet is not a gentleman; from from it; but to many their methods favor more of new solutions than religion, and of reverence more than reverence, which is painful to many followers of the Master.

In another column will be found a receipt from Rev. Dr. Warden for \$14.85, being the amount received by the Intelligence in answer to an appeal for the famine fund. The amount is not large, but many Belleville churches have sent private contributions besides the sum forwarded by us.

Had not other objects claimed their attention at the present time we feel sure our citizens would have responded more liberally, but, as it is, the amount, though small, will do some good.

Your old-timers love to be reminded. "Ah," said an old Englishman last night, "twenty-two years ago today we had a great time. The members of the St. George's society marched up to the residence of the late Mr. Corby and how we did enjoy ourselves, to be sure." Every old Englishman in town has a warm spot in his heart for the late Mr. Corby.

More praise for the Canadians. Writing from Kimberley to Captain John, O'Connell, Keweenaw, the Commander at Kimberley during the siege, says: "How well Canada has done. I had a dear little chap with me, Melrose, Royal Engineers in Canada, from the Royal Military College quite the best of the best. He worked out all the defence works of Kimberley and was my staff officer during the siege, and wherever he went inspired confidence. I can never forget how much I owe to him. The Canadians have been doing grandly everywhere, and I expect we shall hear more of them before the war is over."

Another Canadian has come home to settle down. Two or three years ago, when the Spanish-American war broke out, John in Kimberley, Ontario, enlisted with a regiment from the Western States, and died of fever in the Philippine Islands. The American war department forwarded the remains home, and the body arrived there last Friday, addressed to the father, Andrew Kennedy.

A Kingston man fell sixteen feet, but of course he was asleep, so escaped without injury.

Amid all the expressions of sympathy for people in South Africa we have heard none yet for the swains. Poor man, he must be working overtime these days, with not a soul to say a good word for him. Three cheers for the swain, who has saved us many a bit of news which would have banished him from our pillows.

The word "Dunlop" is registered—and the Dominion Government says it belongs to the Dunlop Tire Company.

results from its use. For this reason I  
have pleasure in recommending it

rheumatism.

Abnormal enthusiasm too often passes for great executive ability. Many Made Hapgood—Gentlemen, for five years I had been a great sufferer with Dyspepsia; the pain in the pit of my stomach was unbearable and I only secured a drug to me. When I would have horrible dreams, and my life became very miserable, as there was no relief from any of the remedies, I was told to try your Hapgood's.

With the use of only two bottles of Hapgood's and Lyman's Vegetable Bile, I am now a healthy man. My stomach is changed and I am a well man. I can assure you my case was a hard one, and I send you this that it may be of service to some other sufferer. I have written this for the purpose of convincing others of the wonderful curative qualities possessed by this medicine, that are specially adapted for the cure of Dyspepsia. A lady customer of mine had the Dyspepsia very bad, she could scarcely eat anything, and she suffered with indigestion. I sent her two bottles of Hapgood's and Lyman's Vegetable Bile, and she was cured.
